PULKIT KHATTER

Cloud Engineer | AWS | Azure | DevOps | Terraform | Python
Haryana, India | pulkitkhatter13@gmail.com | LinkedIn | GitHub | Portfolio | katsguru.com

SUMMARY

Cloud Engineer with hands-on experience across AWS and Microsoft Azure, CI/CD pipelines, Infrastructure as Code and Python automation. Built and shipped cloud-connected applications as founder of KATS Guru, and worked on cloud solutions with AWS, Azure and CI/CD pipelines as a Solutions Engineer Intern at MoEngage. Also a technical mentor: trained 6,000+ students and delivered a 6-month enterprise cloud training program. B.Tech (Hons) Computer Software Engineering, CGPA 8.8.

TECHNICAL SKILLS

Cloud Platforms	AWS (EC2, S3, VPC, IAM, RDS, Lambda, CloudWatch), Microsoft Azure (VMs, AKS, Azure DevOps), Firebase Cloud Messaging
DevOps & IaC	CI/CD, GitHub Actions, Azure DevOps, Jenkins, Docker, Kubernetes, Terraform, Git, Linux, Bash
Programming	Python, Java, JavaScript (Node.js, Express), Kotlin, C/C++, SQL
Application & AI	REST APIs, Microservices, Android, Full-Stack Web, Machine Learning fundamentals, Agentic AI
Practices	Cloud Security (IAM, least privilege), Monitoring & Logging, Automated Testing, Agile, Technical Documentation

EXPERIENCE

Founder | KATS Guru / KATS Services *Present*
Software, cloud and training services | katsguru.com
- Build and deliver software and cloud-connected solutions for freelance and business clients end to end: requirements, backend APIs, web and mobile.
- Delivered a 6-month cloud training program for enterprise teams in cohort-based and 1:1 formats.
- Mentor professionals and students in AWS, Azure, Python and AI through hands-on labs and projects.

AI/ML & Robotics Instructor (Level 3) | Moonpreneur *Apr 2025 – Oct 2026*
- Promoted to Level 3 within about eight months; taught Python, machine learning fundamentals and agentic AI to students aged 6 to 20.
- Designed and delivered structured, project-based technical curriculum; trained 6,000+ students online over 3 years of mentoring.

Solutions Engineer Intern | MoEngage *Aug 2024 – Dec 2024*
- Worked on cloud solutions using AWS, Azure and CI/CD pipelines.
- Delivered cloud and AI training sessions to internal teams as part of the role.

PROJECTS

LeadZam Click-to-Call: Cloud-Connected CRM System *2026*
- Built a Node.js/Express backend with REST APIs that sends high-priority Firebase Cloud Messaging (FCM) data messages from a CRM dashboard to an Android device.
- Developed a Kotlin Android app with in-app and background notifications that opens the native dialer with the number pre-filled.
- Implemented delivery tracking (received, opened, dismissed, error) through an acknowledgement API with automated backend tests; verified end to end on real FCM.
  Technologies: Node.js, Express, Kotlin, Firebase Cloud Messaging, REST API

Three-Tier Web App on AWS with Terraform and CI/CD *2026*
- Provisioned a VPC with public/private subnets, Application Load Balancer, Auto Scaling EC2 and RDS using reusable Terraform modules with remote state in S3.
- Built a GitHub Actions pipeline to test, build a Docker image and deploy with zero downtime; added CloudWatch alarms and dashboards for health and latency.
- Applied least-privilege IAM roles, security groups and Secrets Manager for credentials.
  Technologies: AWS, Terraform, Docker, GitHub Actions, CloudWatch, IAM

Containerized Microservices on Azure Kubernetes Service *2026*
- Containerized services with Docker, stored images in Azure Container Registry and deployed to AKS using Helm charts.
- Automated build and release through an Azure DevOps pipeline with environment approvals; enabled autoscaling and monitoring with Azure Monitor.
  Technologies: Azure, AKS, Docker, Helm, Azure DevOps, Azure Monitor

Serverless Event-Driven Data Pipeline on AWS *2026*
- Designed an event-driven pipeline with API Gateway, Lambda, SQS, DynamoDB and S3, defined as code with AWS SAM and deployed through CI/CD.
- Added dead-letter queues, retries, structured logging and CloudWatch alerts for reliability.
  Technologies: AWS Lambda, API Gateway, SQS, DynamoDB, S3, SAM, Python

EDUCATION

B.Tech (Hons), Computer Software Engineering | Lovely Professional University *2021 – 2025*
CGPA: 8.8
